**Press Release**

**Two important projects in India  
for Premier Tech Aqua**

**India, February 8, 2010** – Premier Tech Aqua (PTA), a business unit of Premier Tech, announces the signing of two important contracts in India.

First, PTA has signed an agreement worth C\$175 000.00 with M/s Hydrotech Parayavaran (India) Private Limited National as technology and equipment provider for the construction of a wastewater treatment plant for the city of Charkhi Dadri, in Haryana County. PTA will also be responsible of the design and engineering for this plant offering a 5 000-m<sup>3</sup> per day flow treatment based on a SBR technology. The client is the National Building Construction Corporation Limited, a Government of India Enterprise.

As well, PTA has concluded a similar agreement worth C\$175 000.00 with M/s SIMA Labs Private Limited as technology and equipment provider for the construction of a wastewater treatment plant for the Surajpur Housing, in Greater Noida. PTA will again be responsible of the design and engineering for this plant offering a 6 000-m<sup>3</sup> per day flow treatment based on a SBR technology. Uttar Pradesh State Industrial Development Corporation Limited, a State Government Undertaking in Kanpur, is the client.

Internationally renowned, PTA operates in the field of wastewater treatment for the residential, commercial, community, municipal, and industrial sectors. It develops custom processes for the treatment of landfill leachate and the biological treatment of wastewater generated by municipalities and industries.

**Corporate Profile**

For over 85 years, Premier Tech has been building its know-how and reputation on the expertise and synergy of its business units, structured around three groups – **Horticulture and Agriculture, Industrial Equipment and Environmental Technologies**. Our businesses have the mission to become technological and commercial leaders in their respective industries. Driven by a multidisciplinary team of over 1 700 people located in the Americas, Europe and Asia, Premier Tech focuses on the development of its team members, on Innovation, and on the introduction of value-added products and services to support its long-term growth.
