- UV disinfection
- disinfection filter
- phosphorus removal

Certified  
to BNQ  
standard  
NQ 3680-910

Certified  
to CAN/BNQ  
standard  
3680-600

Made in  
Québec

# ECOFLO<sup>®</sup>

## UV DISINFECTION (DiUV)

Our UV disinfection option reliably kills wastewater pathogens, so you can safely send wastewater into a ditch or watercourse.

### Improved design

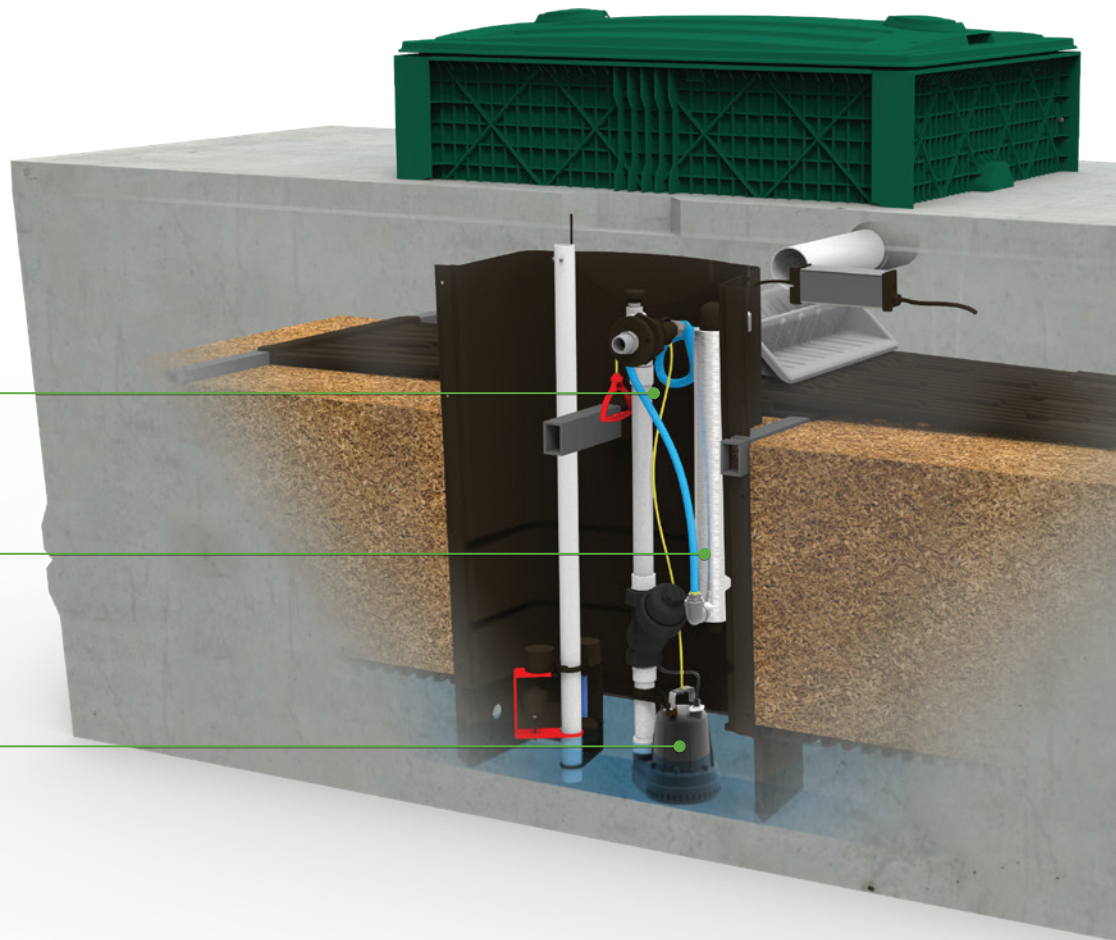

Strong, reliable parts ensure easy operation and maintenance.

### New UV lamp

Kills wastewater pathogens with UV radiation.

### Integrated pump

Discharges treated wastewater in any site conditions and keeps ditch water out of the treatment unit.

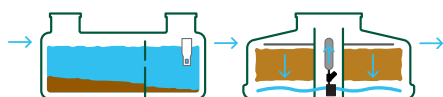

## READY TO USE

With our UV disinfection option, you get effective, reliable wastewater treatment immediately after installation.

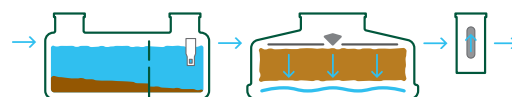

## WI-FI ALERTS

Our UV disinfection unit sends us instant Wi-Fi alerts, so we can help you protect your investment and the environment. If your system has a problem, our service team will follow up on it.

UV disinfection integrated in Ecoflo

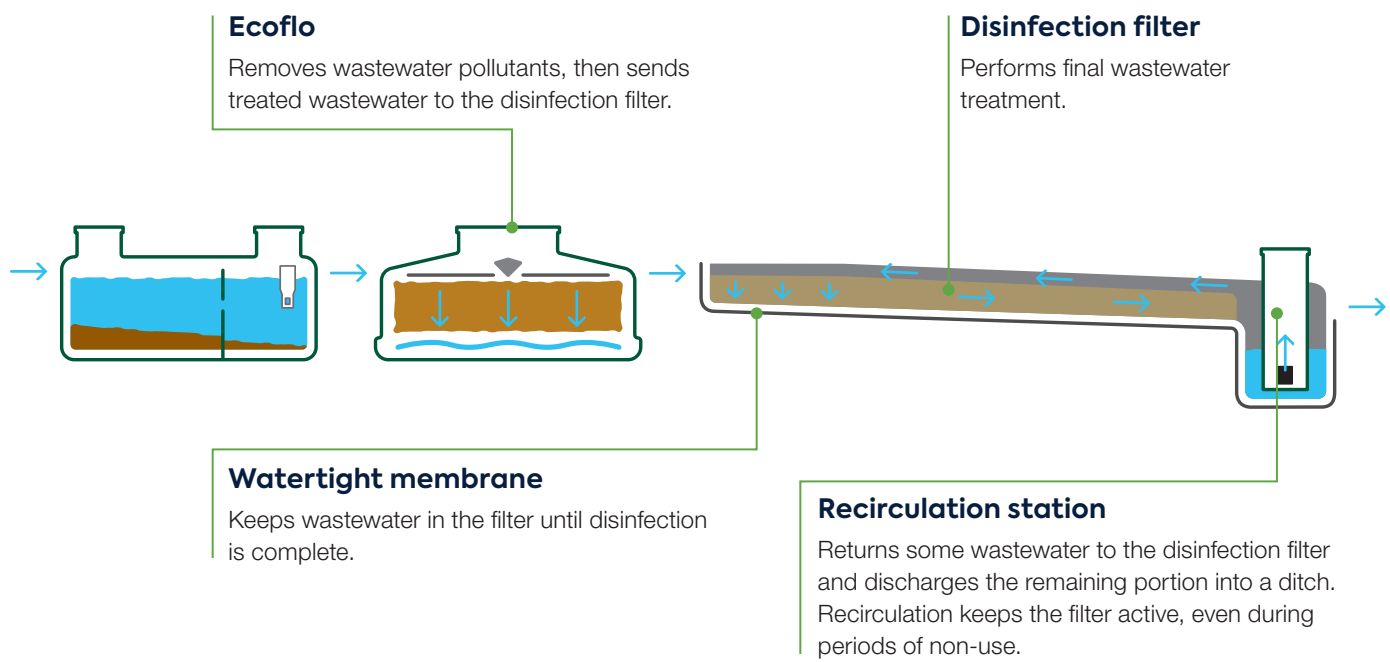

UV disinfection in a separate tank

# ECOFLO<sup>®</sup>

## DISINFECTION FILTER (FDi)

Installed downstream from Ecoflo, our disinfection filter provides final wastewater treatment for properties with impermeable soil.

# REWATEC™

## PHOSPHORUS REMOVAL (DpEC)

Without proper treatment, phosphorus in wastewater can cause harmful algae growth in lakes and rivers. Protect these sensitive areas with our phosphorus removal option.
