

Quality Policy

As one of the leading brands in Waste Water Solutions in the UK Premier Tech Water and Environment Ltd are committed to continued growth, the continual improvement of our Business Management System and in satisfying applicable requirements, including statutory and regulatory.

Our mission is to develop our operations through both organic and acquisitive growth to become the largest and most trusted provider of all Waste Water Solutions throughout the UK and Ireland.

We are committed to achieving and maintaining ISO9001:2015 certification through co-operation, motivation and effective collaboration with all our team members and interested parties. This will ensure consistency of approach, continual improvement and confidence in our processes to deliver high quality products to our clients.

We will continue to develop our team members, current and new, to embrace the companies culture and values and complement the cooperation required to achieve the effective development of the Business Management System. The effectiveness of the Business Management System will be continually reviewed and will drive continual improvement of our products and processes.

We are committed to enhancing customer satisfaction through the effective implementation of the Business Management System and with it a socially responsible attitude to the manufacture and provision of our products.

Quality objectives will be set to support this policy and the organisations changing context. These will be reviewed by management at regular management review meetings.

All team members are made aware of this Quality Policy and its objectives and are committed to its implementation. It is also available to all interested parties upon request.
