Environmental Policy

Premier Tech Water and Environment Ltd recognises that day-to-day operations can impact both directly and indirectly on the environment. We are committed to identifying the Aspects (elements of the organisation's activities, products, or services that can interact with the environment) and Impacts (any change to the environment, whether adverse or beneficial, wholly or partially resulting from an organisation's activities, products, or services). Premier Tech Water and Environment Ltd aim to protect and improve the environment through good management and by adopting best practice wherever possible. Premier Tech Water and Environment Ltd will work to integrate environmental considerations into our business decisions and adopt greener alternatives wherever possible, throughout our operations.

The purpose of this Policy is to ensure that all relevant activities, products and services of the organisation are identified and carried out in compliance with the environmental legislation and other requirements including but not limited to Prevention of Pollution.

In all our activities, we are committed to:

- Comply fully with all relevant legal requirements, codes of practice and regulations.

- Prevent / Minimise pollution to land, air and water.

- Continually improve the EMS to enhance environmental performance

- Reduce / Minimise water and energy use.

- Minimise waste and increase recycling or reuse where commercially possible.

- Identify and manage environmental risks and hazards.

- To ensure that environmental responsibilities are defined, communicated and understood at all levels within the organisation, and provide a level of knowledge and understanding appropriate to their environmental responsibilities.

- Promote environmentally responsible purchasing.

- Provide suitable training to enable employees to deal with their specific areas of environmental control.

All Team Members are responsible for working towards the objectives contained within this policy.
