

# Wastewater treatment and water management for businesses and communities

# Environmental solutions in wastewater treatment and rainwater management

Our team of experts guides you through every step of your septic or rainwater project, whether it is for a residential development, a campground, a park, a microbrewery, or any other.

We offer a wide range of high-performing and eco-friendly technologies that can be tailored to fit your project.

Discover our products and services while helping protect the environment and the planet for future generations.

# 36

## SUPPORT

# Premier Tech's 360° support

## DESIGN

- participation in planning and optimizing solutions
- expert support for both the client and the engineering firm leading the project
- professional recommendations

## OPERATION AND MAINTENANCE

- program for preventative follow-ups and personalized maintenance
- local service technicians
- environmental follow-up

## PROJECT MANAGEMENT

- dedicated project manager
- on-site installation technical support
- real-time remote troubleshooting

## SYSTEM STARTUP

- commission by a qualified technician
- verification of installation conformity

# Our expertise

No matter your project, we offer technologies that are efficient, high-performing, and adapted to increased organic loads and high wastewater fluctuations.

Whether a new system or a renovation is what you need, we have the solution for you.

- campground, park, or resort
- restaurant, vineyard, or microbrewery
- gas station or convenience store
- school or daycare
- residential development or municipal installation
- tourist attraction
- sports and recreation center
- community center
- workers camp
- small business

Camping des Aulnaies,  
St-Roch-des-Aulnaies, Québec

# We have the customized solution for your unique project needs

Over  
2,000 projects  
worldwide

## Rainwater harvesting

### For indoor and outdoor use:

- toilets and urinals
- laundry washing
- irrigation and watering
- car washing
- filling pools and spas
- washing asphalt entrances and sidewalks

\*Certain uses may require further treatment.

# Our main technologies

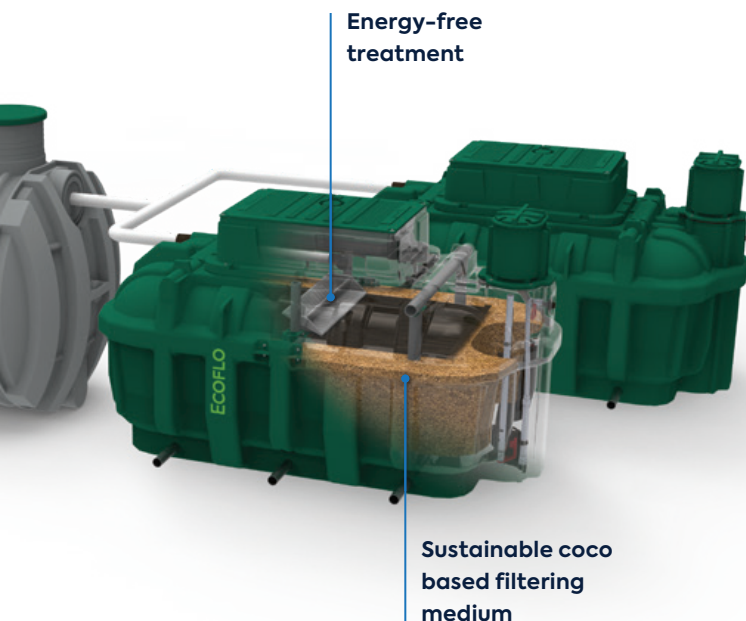

Our will to innovate and develop high-performing and sustainable technologies allows us to find durable solutions that are tailored to your project.

## REWATEC™

### Water management solutions

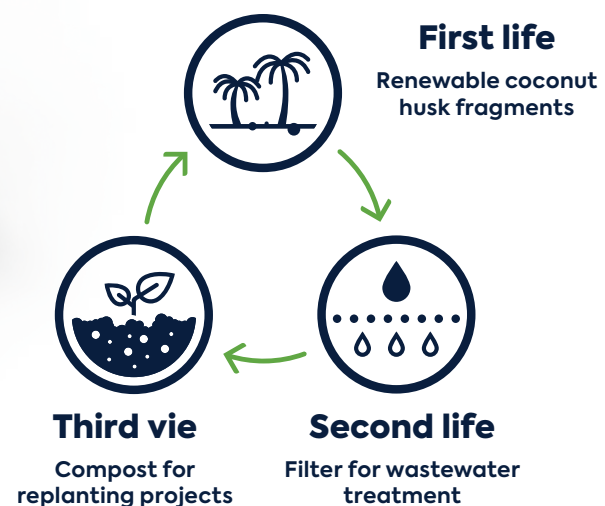

- Moving bed biofilm reactor (MBBR)
- Rainwater harvester

## ECOFLO®

### Sustainable septic solution

The Ecoflo biofilter filters and treats wastewater with a coconut husk filtering medium that is 100% natural, renewable, and compostable.

# Service and maintenance

We guide you after the installation to help you maintain your system's performance and to ensure your peace of mind.

- preventative follow-up program
- assistance by our experts
- local service technicians
- personalized service adapted to your needs
- complete inspection report
- maintenance program based on governmental requirements

**Optimize the value  
of your investment**
